

## 2.510 Fixes (52 calls)

26 June 2004

Window	HMS call #	Change
Activity recording	32144	Added a way to flag a log as containing Attorney-client privilege information, recording a worker's contact with an Attorney General.
Activity recording printout	32768	Changed the default for Start and End Dates to Today's date, to be consistent with the Activity Recording Summary window.
Access to SAFE	32708	Modified the Guardian ad Litem access profile to allow GAL access consistent with H.B. 60 (2004 Legislature)
	32637	Created a new access profile for Court Clerks consistent with H.B. 97 (2004 Legislature)
Case (CPS)	32708	Enabled the text of the Closure Statement on the CPS Case Details tab to be copied.
Case (In-home)	32507	IHS Closure Reasons removed from dropdown for other case types.
Directory	32686	Limited access to cases through the Directory Worker tab to authorized users
	32304	Fixed grid settings on Directory Provider tab to work.
Functional Assessment	32241	Enabled supervisors to be able to edit terminated workers' draft entries.
	32764	Fixed Needs to only be able to be edited for 30 days.
Main Menu	32351	Webified messages to users.
Notifications	32734	Created new ICWA notice for missing ethnicity/tribal information.
Person	32765	Added edit to not allow deceased date that is prior to DOB.
	32766	Changed edits for deceased date to blank out Status when deceased date is removed, and to not allow date removal if Status is "Verified".
	31970	Added connection between entry of Ethnicity and Native American tribal information to help satisfy ICWA requirements. The latter fields are only enabled when Ethnicity of "American Indian/Alaska Native" is entered. Otherwise this section is grayed out. Additionally, an edit was created to require a text entry in the Tribe Name field to correspond with an "American Indian/Alaska Native" entry.
Placement	32466	Enabled delete icon and allow delete of a Placement record with draft status.
	23868	Improved the tabbing order when making entries.
Referral	32693	Fixed a problem in formatting the CANR when printed from Referral window, in which two fields overlap.
	30203	Fixed a problem in which the wrong person Temp Person is pulled in to make them known.
	32692	Fixed a problem in which parts of the person number is retained when entering a short first name.
	23745	Fixed a problem that caused a data base error when adding an address for a second temp person.
	32668	Fixed a problem in which any change to referral address caused the county to revert to "Beaver."
